vontact pressure

Titan Square iGO

Maximum mobility
thanks to Li-Ion power
available from
March 2026

Easy to use. Simple cleaning close to the edge.

The new eccentric machine series combines powerful cleaning performance with maximum user-friendliness. Thanks to its rectangular pads, the Titan Square effortlessly cleans every corner and along edges – without any time-consuming reworking. The innovative eccentric technology ensures excellent mechanical action with minimal vibration, allowing the machine to be guided smoothly, safely and without fatigue – even by inexperienced users.

Whether for basic or maintenance cleaning, the Titan Square delivers perfect results on almost all floor coverings. The additional weights of 20 and 30 kg included in the scope of delivery ensure high contact pressure, while robust metal and brass components guarantee a long service life. Two corded machines are available – the Titan Square and Titan Square XL – as well as a cordless machine for maximum flexibility – the Titan Square iGO.

■ Scope of delivery □ Optional accessories

Rectangular pads: perfect edge and corner cleaning without manual reworking

Product features:

Ergonomic: Handle element with robust switches and integrated cable protection

Pre-Pad protection: prevents damage to the hook-and-loop fasteners on the machine, for example when parking without a pad

Easy transport: quick assembly and disassembly of weights

Robust & durable: complete mechanism made of metal, with brass parts that come into contact with water

Mobile: cordless cleaning with up to 65 minutes of runtime for maximum flexibility (Titan Square iGO)

Low vibration: ergonomic working, even during long working intervals

Easy and safe to use: smooth, controlled operation without exertion

Flexible: 8 different pads with different material compositions, suitable for various cleaning tasks
