

WATERKING series

SPRiNTUS

Quiet and powerful wet and dry vacuum cleaners, the ideal companions for thorough cleaning

With 260 mbar suction power at 70 L/Sec, the two models **Waterking** and **Waterking XL** are extremely powerful and enable excellent area performance. Thanks to the mechanical output regulator, suction power can be adapted to any kind of flooring. With the integrated blower function, filters and work benches can be blown clean, or wet surfaces can be

blown dry. On-device storage for the hose, power cord and accessories, as well as a parking position for the tube and an ergonomic handle, ensure optimal handling and make the two devices fit for professional use. A high-performance power socket located on the head allows for the use of further cleaning machines directly through the vacuum.

Highlights

- ▶ Outstanding water/dirt intake
- ▶ Consistent separation of intake air and processed air
- ▶ Reliable floating gauge even reacts during heavy foam growth
- ▶ Cyclone water separation system
- ▶ Rotary joint on the suction hose for hindrance-free maneuvering
- ▶ Ideally suited for dry vacuuming in combination with the fine dust filter cartridge and the fleece filter bag
- ▶ Mess-free waste disposal thanks to the closeable fleece filter bag
- ▶ Robust chassis with large swivel casters and wheels

Features

The blower function is integrated into the back side of the device and is activated by simply inserting the suction hose.

A powerful electrical outlet enables the use of additional cleaning tools directly through the vacuum cleaner.

Thanks to the mechanical output regulator, suction power can be adapted to any kind of flooring.

Always close to the action: Four accessory slots and a park position for attachments on the back of the vacuum

Easy, tool-free change of rubber lips.

Patented water separation system.

Due to the twist of the intake nozzle, the spray-fog is consequently diverted along the inner container wall. Additional filters are no longer necessary. The reliable floater system even reacts during heavy foaming. Cooling air slots located on the side ensure the consistent separation of cooling and processed air.

Cyclone insert for wet vacuuming.

HEPA 13 fine dust filter cartridge for dry vacuuming.

WATERKING XL

- ▶ 45 litres container volume
- ▶ 450 mm wide floor nozzles
- ▶ Innovative locking brake on the sturdy chassis
- ▶ Large, easy-to-remove push bar
- ▶ Drain hose for comfortably emptying the container
- ▶ Rubber-coated swivel casters and back wheels
- ▶ High volume flow rate thanks to 38 mm hose and tube diameter

VS

WATERKING

- ▶ 30 litres container volume
- ▶ 360 mm wide floor nozzles

Waterking

Waterking XL

Additional equipment for Waterking XL

Wastewater drain hose for easy emptying of the container.

The locking brake can be operated from either side and prevents the vacuum cleaner from rolling away.

Accessories

Professional metal floor nozzle 450 mm for the toughest jobs.
Item-No. 113250

Antistatic suction hose, 3 m.
Waterking Item-no. 109112
Waterking XL Item-no. 118193

Technical Data:	Waterking	Waterking XL
Voltage	220-240 V / 50 Hz	
Max. Power	1300 W	
Number of turbines	max. 1500 W	
Sound pressure level	68 dB(A)	70 dB(A)
Volume flow	70 Litres / sec.	
Max. negative pressure	230 mbar*	
Container material	Plastic	
Container volume	30 Litres (gross)	45 Litres (gross)
Length of power cord	7,5 m	10 m
Length of suction hose	2,5 m	3,0 m
Diameter of suction hose	32 mm	38 mm
Diameter of suction tube	38 mm	
Weight	7,8 kg	13,5 kg
Dimensions (L x W x H)	46 x 38 x 59 cm	49 x 44 x 77 cm
