

Magic Click

Ingeniously simple – simply ingenious! Foldable magnetic mop holder with patented self-standing function.

A smart solution with a big impact! Simply leave the Magic Click standing anywhere in the room when you need both hands free. The robust cardan joint can be pivoted all the way round for the figure 8 mopping technique and can be locked at any time so that the Magic Click can be left standing immediately and in any place. No need to lean it against the wall or an object. Goodbye to endless bending over to pick up the fallen mop. With Magic Click, you work effectively, quickly and consistently protect your back.

MOP HOLDERS

Ergonomic, ribbed grip for secure holding, even through gloves.

Accessories: telescopic handle, height-adjustable in range 0.80 - 1.45 m for setting to the optimum working height. (Handle is not part of delivery content.)

Optional telescopic handle with Quick-action locking for simple height adjustment.

Strong magnetic catch with 5 kg closing force and automatic locking. The holder opens asymmetrically, thus facilitating threading into the mop pockets.

Shaft and holder are securely fixed with a stainless steel screw.

The click-action lock of the reliable self-standing function has been tested in a 10,000 action cycle.

All pivoting pins and screws are made of stainless steel.

The easy action redary joint enables easy turning in any direction and at any angle.

The snap-action holder can be easily opened with the large 2-stage foot switch.

Optionally in 40 or 50 cm working width.

Excellent production quality and an optimally balanced intrinsic weight guarantee perfect mopping action and strain-free working.
