

ARTOS High-quality, powerful wet / dry vacuum cleaner at a fair price.

Suggested Use

The vacuum cleaner is perfect for cleaning buildings, industrial facilities and workshops due to its power, compact size and robust design.

The wet / dry vacuum cleaner Artos in the 30-litre class impresses thanks to its high quality and sensational value for money. Innovative features, such as the cyclone water separation system with a reliable floater system, sets the Artos clearly apart from the other wet / dry vacuum cleaner models in the entry-level class. The wide chassis and long wheelbase make the Artos a particularly agile machine, which can be manoeuvred easily over the surface to be cleaned. The 360 mm wide floor nozzle included in the

basic configuration is extremely user-friendly and can be converted from a wet floor nozzle to a dry floor nozzle by simply exchanging the rubber strips for brush strips. High-quality components, such as the strong stainless-steel container and the 1200 Watt motor, make the Artos a robust and reliable partner in professional cleaning.

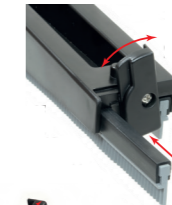

TECHNICAL DATA	
Voltage	220-240 V / 50 Hz
Max. power	1200 W
Sound pressure level	72 LpA [dB]
Volume flow rate	48 litres / sec.
Max. suction	230 mbar
Container material	stainless steel
Container volume	30 litres (gross)
Length of power cord	7,5 m
Length of hose	2,5 m
Diameter of hose	32 mm
Diameter of tubes	32 mm
Weight	8,9 kg
Dimensions (L x W x H)	42 x 38 x 63 cm

Wet floor nozzle 360 mm.
Item-no. 101087

Easy to exchange rubber strips, no tools required.
Item-no. 101101

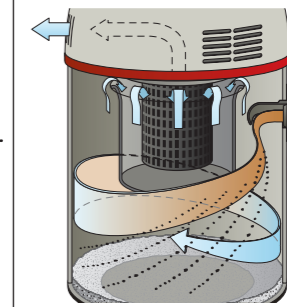

Always close to the action: four accessories slots and a park position for attachments on the back of the vacuum.

Easy hose click system.

The illustration shows the patented water separation system with cyclone unit.
Item-no. 116105

Due to the twist of the intake nozzle, the spray-fog is consequently diverted along the inner container wall. Additional filters are no longer necessary. The reliable floater system even reacts during heavy foam growth. Cooling air slots located on the side ensure the consistent separation of cooling and processed air.

Cyclone unit.
Item-no. 116105

HEPA 13 fine dust filter cartridge.
Item-no. 116106

The blower function is integrated on the top of the appliance and is activated simply by attaching the vacuum hose.
